

BRIDGE TO THE FUTURE

Dear IPS families, staff and friends (alumni and current),

**Please help kickstart our 25th Anniversary
BRIDGE TO THE FUTURE FUND
25 years / \$250,000**

- Equip IPS to thrive for the next 25 years
- Protect our values of diversity and inclusiveness with financial bursary funding

IPS stands to equip and inspire our students in expressing the very best of what it is to be a human being. This academic intentionality is expressed in every organizational aspect of IPS. Take, for example, our foundational value of being accessible to as many students as possible. Financial aid has been a cornerstone value since inception and we are deeply committed to supporting this for years to come.

Intentional “development” is just four short years old at IPS. We have accomplished a great deal over these four years by being strategic and intentional together. Rick’s Place and the Think Tank are great examples of this. However, there is much more to do to support our beloved school for the next 25 years. Hence, our commitment to the **Bridge to the Future program**.

The vision of our **Bridge to the Future** is to develop a pool of funds that will equip IPS in maintaining educational excellence, investing in academic enhancements and thrive as a diverse, inclusive environment by supporting financial bursaries and assisting as many students attend IPS as possible.

We are grateful for each and every donation we receive. We hope to inspire you to consider what is possible given your unique circumstances during these difficult times. We encourage you to be creative and also extend this invitation to donate to as many of your contacts as possible.
